SUMMARY

Senior Data Scientist with 5+ years of experience in building machine learning models and deriving insights from complex datasets. Expert in Python, SQL, and statistical analysis. Proven track record of deploying ML models to production and driving business growth through data-driven decisions.

SKILLS

Python, SQL, Machine Learning, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Statistical Analysis, Data Visualization, AWS, Docker, Git, Apache Spark, Hadoop, Tableau, PowerBI, Deep Learning, NLP, Computer Vision, Time Series Analysis

EDUCATION

MSc Data Science | Stanford University | 2015 - 2017

BSc Computer Science | UC Berkeley | 2011 - 2015

CERTIFICATIONS

- AWS Certified Machine Learning Specialist
- TensorFlow Developer Certificate
- Microsoft Azure Data Scientist Associate

ACHIEVEMENTS

- Best Paper Award at AI Conference 2022
- Published 3 research papers in top journals
- Speaker at Data Science Summit 2023

WORK EXPERIENCE

Senior Data Scientist | TechCorp Inc. | 2021 - Present

- Developed machine learning models for predictive analytics, achieving 95% accuracy
- Led a team of 5 data scientists to build an end-to-end ML pipeline
- Deployed models to AWS using Docker and Kubernetes
- Reduced customer churn by 25% using advanced ML algorithms

Data Scientist | DataFlow Analytics | 2019 - 2021

- Built recommendation systems using collaborative filtering
- Performed ETL on large datasets using Python and Spark
- Created interactive dashboards using Tableau for stakeholders
- Implemented A/B testing frameworks for product features

Junior Data Scientist | AI Solutions Inc. | 2017 - 2019

- Assisted in building predictive models for financial services
- Cleaned and preprocessed large datasets
- Automated reporting processes using Python scripts

PROJECTS

- Developed a fraud detection system with 99% accuracy
- Built a real-time sentiment analysis dashboard
- Created an automated ML pipeline for model deployment
